

YOHANNES BELAY WOLDEYES

Madrid, Spain | (+34) 641 240 786 | yohannes.woldeyes@student.ie.edu | [LinkedIn](#) | [GitHub Profile](#)

PROFESSIONAL SUMMARY

Performance-driven Software Engineer with deep expertise in scalable backend architectures, distributed systems, and applied artificial intelligence. Experienced in designing production-grade multi-tenant SaaS platforms, financial transaction workflows, and autonomous AI agent pipelines utilizing .NET, Python, Go, and cloud technologies. Translates complex operational workflows into resilient, high-throughput software solutions engineered for enterprise environments.

EDUCATION

IE UNIVERSITY

Master in Computer Science and Business Technology

Madrid, Spain
Expected: July 2027

- GPA: 10.00/10.00. Ranked top 5% among graduating class
- Awarded Fellowship/Academic Excellence Scholarship
- Relevant subjects: Artificial Intelligence and Machine Learning, Cloud Computing, Cyber Security Systems

ADDIS ABABA UNIVERSITY

Bachelor of Science in Computer Science

Addis Ababa, Ethiopia
Graduated: June 2025

- GPA: 3.85/4.00. Ranked top 5% among graduating class
- Awarded With Great Distinction
- Relevant subjects: Artificial Intelligence, Linear Algebra, Software Engineering, Database Systems, Algorithms & Complexity

PROFESSIONAL EXPERIENCE

Tent Softlab SL.

Software Engineer

Valencia, Spain
August 2025 – August 2026

- Led backend architecture of TentWorkspace using .NET, Razor Pages, and SQL Server in an Agile team environment; engineered a scalable multi-tenant SaaS featuring real-time vehicle fleet tracking, dynamic-rate time logging, and recurring Stripe subscription billing infrastructure.
- Spearheaded product launch of BrandCollab alongside product teams and influencers using React and Node.js; implemented a secure milestone-based Stripe Escrow payment engine, conditional fund-release protocols, and compliant KYC identity verification pipelines.
- Partnered with engineering peers and client stakeholders to deploy autonomous AI workflows and live conversational voice agents using ElevenLabs, LLM APIs, and n8n; integrated custom assistants across MS Teams and Outlook to orchestrate CRM pipelines, PDF parsing, and operational tasks.

International Livestock Research Institute (ILRI)

Infrastructure Engineer

Addis Ababa, Ethiopia
June 2024 – September 2024

- Configured enterprise networking hardware alongside senior network administrators, installing multi-tier switches and routing infrastructure; diagnosed connectivity bottlenecks, communicated technical resolutions to campus staff, and ensured high-availability system uptime across operations.
- Partnered with senior engineers to train staff and standardize workstation deployments via scripted OS imaging, hardware upgrades; streamlined device onboarding and resolved escalated support tickets across Microsoft environments.

MAJOR PROJECTS

- Spearheaded predictive modeling research by engineering multi-variable climate and soil feature pipelines across ensemble regression models to forecast regional crop yields, achieving an R^2 of 0.89 to guide harvest planning for farmers.
- Devised an end-to-end text classification pipeline, fine-tuning Transformer and NLP models in Python and Scikit-Learn with custom preprocessing and tokenization achieving a 92% F1-score across 10,000+ disaster-related Twitter posts.
- Conceptualized and launched BirrWise, an intelligent personal finance platform integrating OCR receipt extraction and LLM-driven budget analysis to streamline expense categorization and financial planning for 20+ active users.

SKILLS

Languages: English (Advanced); Spanish (Beginner); Amharic (Native)

Technical: Python, Go, Java, .NET, React, Node.js, SQL, Docker, Git, Scikit-Learn, Transformers, Pandas, NumPy, n8n, Trello

Certifications: Machine Learning Specialization (Stanford Online & DeepLearning.AI, 2026), Data Analytics (Udacity, 2024)

ADDITIONAL INFORMATION

- Technical Mentorship:** Mentored 20+ undergraduate peers in algorithms, OOP principles, and full-stack development
- Interests:** Competitive Chess (Active strategic play on Chess.com), Open-Source AI development
